CORONAVIRUS

Mr. STABENOW. Mr. President, I want to take one other moment just to also speak and thank everybody that is involved at this point in getting us to where we are on this very important survival package.

I have never felt this was a COVID stimulus. It is about helping people survive over the next several months, whether that is making sure they have a roof over their head and food on the table, can pay the bills, keep the heat on. In places like North Dakota and places like Ohio, it is going to get pretty cold this winter. Our small businesses, our farmers, our schools that need help to be able to succeed, all the support we need to provide for vaccine distribution and healthcare, and all of the other areas—this has been a tough negotiation.

I do want to say, on a couple of points where I have been deeply involved, I want to thank the Presiding Officer for his support and help on our nutrition and agriculture pieces. We have come together in a very important step. It is going to allow more people to get help to feed their families over the next several months—no small thing.

We have a hunger crisis in our country. We have people who have donated to the food bank, worked for the food bank, and are now sitting for hours in cars, waiting to drive up and get a box of food, in the United States of America.

And so what we are doing as part of this package is going to be significant to help people be able to purchase food in the grocery store, as well as to get help in other ways—to help our seniors with Meals on Wheels, to help our children who aren't able to eat in school right now, and our college students who don't have the opportunity to be on campus and get support.

So we have very significant food access and nutrition, very positive efforts in this legislation. And for our farmers, as well, across the country, there is significant support, as well as help in our food chain and supply chain areas, where we have all been concerned as we have watched those involved in the supply chain lose their markets in restaurants and so on but not have the support and the capacity to take that milk or take those other commodities and be able to move them over and package them differently for consumers to go to the food bank. We make some headway in supporting that, as well, in this legislation.

So I want to thank my colleagues. This is really the last negotiation that Senator ROBERTS and I have led, as he retires this year. And it has been, as I have said before, a great pleasure to work with him and to be able to achieve this effort—bipartisan effort.

The one thank-you I just want to give is in a whole other area that has been a passion of mine that I have been

proud to lead with a colleague from Missouri, Senator ROY BLUNT. We have very significant support, as well, for behavioral health services, mental health, substance abuse services that are desperately needed and have been amplified, and the need has been expanded even more because of what has happened with the coronavirus.

And there is important support in this legislation, as well, and I am grateful to be involved in pushing that forward as well.

So there is more to talk about. I know we are a little ways away from that final vote, but I am hopeful that the coalition that was formed—that all of us working together that brought this together and negotiated, and my colleagues who initiated this bipartisan effort—will find that this is a coalition we want to keep going for next year, because there is so much more that we need to do together, and the American people expect us to get things done. And this, I hope, is the first step of many to celebrate ways that we are solving problems and helping people and moving the country forward.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. PORTMAN. First of all, I want to agree with my colleague from Michigan and thank her for her work concerning behavioral health and working with us in a bipartisan group on both behavioral health and addiction because, unfortunately, during this pandemic, the epidemic of drug addiction and drug overdose and overdose deaths has increased dramatically, and it is a heartbreaking reality because we were making progress, thanks to work here in this Chamber and in the States. Around the country, we were actually reducing not just the number of people addicted but the number of people who were suffering from overdose and overdose deaths.

Unfortunately, this year we are now going to see the largest overdose death rate in the history of our country, we believe. That is a sad reality, and we need to address it—that is part of the COVID-19 package—along with the behavioral health issues that are also, unfortunately, being exacerbated by the isolation that comes with the COVID-19 issue and the helpless, probably, and the joblessness that we have been seeing.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. BLUNT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. JOHNSON). Without objection, it is so ordered.
